Canadian Clocks (2nd Edition) - The Charlton Standard Catalogue

James E. Connell : Canadian Clocks (2nd Edition) - The Charlton Standard Catalogue before purchasing it in order to gage whether or not it would be worth my time, and all praised Canadian Clocks (2nd Edition) - The Charlton Standard Catalogue:

This revised unique reference book covers all the mantle, regulator, steeple and tallcase clocks assembled in Canada. Each clock is fully described, priced and illustrated; the movement, dial, sttike, size and degree of rarity of each clock is also listed. Prices are provided in three grades and there are over 350 photographs.
