Card Weaving or Tablet Weaving

Russell Groff : Card Weaving or Tablet Weaving before purchasing it in order to gauge whether or not it would be worth my time, and all praised Card Weaving or Tablet Weaving:

4 of 4 people found the following review helpful. best buy
By Angel Wings
For a beginning card weaver, this is the best book to start with. The directions are easy and clear. If only other writers would write this clearly!
5 of 5 people found the following review helpful. Card Weaving by Russel Groff
By Linda Hurt
Many people are significantly over pricing this book since Russell Groff died. This one was a fair market price. This book has great card weaving examples that are timeless. I highly recommend it.

By Alice Murphy
An excellent though small book on card or tablet weaving. Ideal for the beginner.

Has a number of nice patterns with full directions. Useful for small groups as well. Gives some background information on card weaving and invites the weaver to further exploration. Well worth the small price. I have used it repeatedly along with more advanced works. Explains the necessity of threading reversals to maintain the proper twist and where to do the reversing.

Lovingly typed up using a Selectric italic face, and hand-illustrated with BW photos of setups and samples, this labor of love from Robin Russ Handweavers, 1969, is as splendid an introduction to tablet weaving as other more finely polished and professionally published offerings. What a delight to have a piece of Mr. Groff's early work.
