Cast Bullets For The Black Powder Cartridge Rifle

Paul A Matthews : Cast Bullets For The Black Powder Cartridge Rifle before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cast Bullets For The Black Powder Cartridge Rifle:

1 of 1 people found the following review helpful. Good basic starting manual for casting bullets for black powder cartridge riflesBy James D RosenbergI've shot cast bullets in an 1873 Trapdoor rifle thru trial and error years ago and I am going to get back into shooting black powder cartridge rifles so I've started to do some researching before I purchase any rifles. This book identifies the molds that have worked for the author and from what I've learned, his

information is sound and based on a long history of firing BPCR loads for competition and hunting. Good information, the book isn't long enough for an in depth discussion on each mold and the processes, but it certainly gives more than enough to get started and will be a valuable reference to keep handy on the loading bench.0 of 0 people found the following review helpful. Insofar as what it covers it is a good book. It does not cover the ballistics of ...By CustomerInsofar as what it covers it is a good book. It does not cover the ballistics of the cast bullet, This arrived on time.1 of 1 people found the following review helpful. Reading basic text on running BP rifles.By W.A. ReedCovers the basics very well. Give insight to the history and development of BP loading. Overall, A good read for those who are just getting into BP in single shot rifles. Be aware that shooting BP can become an active addiction.

Finding the right cast bullet to perform in your black powder cartridge rifle can be a pursuit of disappointment or reward. Matthews puts into perspective the tools and techniques used to make your cast bullet shooting a success.Table of ContentsChapter1 Things You Should Know About Cast Bullets2 Should You Use a Paper Patched Bullet?3 Is Heavier Better?4 The Lyman 457125 with Shades of Indians and Black Powder Smoke5 The Lyman Schmittzer Bullets6 What's wrong with the Old Postel Bullet?7 The RCBS Black Powder Silhouette Bullets8 The Redding-SAEKO Black Powder Cartridge Bullets9 The NEI .458-560-PB, A New Concept for the Black Powder Cart.
