Ceramics

James MacKay, James McKay : Ceramics before purchasing it in order to gage whether or not it would be worth my time, and all praised Ceramics:

Whether they're primitive coiled pots or today's elegant porcelain, ceramics are the most popular collectibles. The magnificent examples shown here give a superb idea of their variety and value: black Chinese vases elaborately painted with pretty pink flowers and curlicues; Meissen porcelain boxes and flasks from the mid-1600s, each with delicate pastoral pictures; and an alabaster Madonna and Child from 1738.
