Even the hardest knots become fairly easy to do. My only complaint would have to be that I would like more knots and patterns. I hope they create a second book!0 of 0 people found the following review helpful. A very nice book with color instructions!By Just MeA friend of mine purchased this book from a craft store at almost twice the price. Colorful examples of how each knot is made. I was so impressed with this book, I have now ordered two of these. Highly recommended.14 of 14 people found the following review helpful. Chinese Celtic Ornamental KnotsBy fireladyExcellent! I've done one knot already.

Really nice pictures and easy to follow instructions. I would suggest this book for beginners.
