Coalport 1795-1926

Michael Messenger : Coalport 1795-1926 before purchasing it in order to gage whether or not it would be worth my time, and all praised Coalport 1795-1926:

1 of 1 people found the following review helpful. Beyond GoddenBy Muses AntiquesThis book by Michael Messenger is a valuable addition to a library on ceramics and adds to the research previously published by Geoffrey Godden. Coalport's entire history is thoroughly explored. The struggles of its final decades are especially interesting.

Excellent colour illustrations. Still scarce in the second-hand market and worth acquiring.0 of 0 people found the following review helpful. Five StarsBy Martin SwaugerGreat book.

This comprehensive survey and illustrated guide to Coalport porcelains integrates the history of the firm over 130 years with discussion of the many wares produced during the period, and examines the close relationship between these two elements. It thus provides a balance between the different periods. New patterns are illustrated, including a range of

later-numbered patterns, as are profiles of wares, a feature which should make the shapes of pieces more apparent. The work of individual artists, including the important contribution of independent decorators in the early 19th century, is also examined, along with the fluctuations in trade, the development of styles and techniques, and the background influences which shaped production.
