Collecting American Brilliant Cut Glass, 1876-1916

Bill Boggess : Collecting American Brilliant Cut Glass, 1876-1916 before purchasing it in order to gage whether or not it would be worth my time, and all praised Collecting American Brilliant Cut Glass, 1876-1916:

0 of 0 people found the following review helpful. Five StarsBy olgaThis book is great! It has everything I needed. Thank you.0 of 0 people found the following review helpful. American Brilliant Cut Glass - a love of beauty in exquisite craftsmanship.By JTWSince childhood I have loved beautiful glassware. I have benefited from a love of all cut glass and antiques in finding a few pieces that I could afford. The book brings information about the craft, the identity of various patterns, and the location the pieces were made. This documents a period of time when an American Craft could bring glassware to enjoy and treasure. I recommend this wonderful book.1 of 1 people found the following review helpful. Collecting American Brilliant Cut GlassBy cynthia j hansonThis is a great book for someone like me who has been collecting for a while but now wants to learn at the next level. One of the most important thing about a book describing glass is the pictures. This book has beautiful images that make the learning experience that

more informative and enjoyable. Thanks!

The foremost experts on cut glass of the 1876 to 1916 period, Bill and Louise Boggess, have brought together vital information for collectors to identify, select, and evaluate cut glass. All collectors will have to own this important new reference book. In *Collecting American Brilliant Cut Glass*, patterns are identified, signatures are shown, and major American companies are described. Thousands of cut glass pieces are shown in 1065 photographs. Even the unusual colored glass examples are illustrated. Each piece is graded for its rarity.

About the Author Bill and Louise Boggess have been collectors and students of cut glass. Their other books in the field over the past three decades have sold thousands of copies. They work from their home in San Mateo, California.
