Thank you Maurice Childs for going the extra mile to present beautiful photography. Leigh Leshner does a great job of describing the different types of plastics, identification tests, vintage designers, current modern designers, how to collect, and price guide. There is only one negative that I could possibly say about this book. I wish they had put more history included with the photographs such as the designer and manufacturer (if known), year made, and any other pertinent information. I especially liked knowing more about Judy Clarke, Jim Foltz, Ester Ron Shultz, Karen Howard Kronimus, Jackie Weeks, and others. A must have for your library!0 of 0 people found the following review helpful. Five StarsBy Customergreat book!!0 of 0
