Collector's Encyclopedia of Compacts, Carryalls and Face Powder Boxes: Carryalls and Face Powder Boxes (v. 1)

Laura M. Mueller : Collector's Encyclopedia of Compacts, Carryalls and Face Powder Boxes: Carryalls and Face Powder Boxes (v. 1) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Collector's Encyclopedia of Compacts, Carryalls and Face Powder Boxes: Carryalls and Face Powder Boxes (v. 1):

Another stunning visual feast of compactsBy Tascha DresserThis book is just as beautiful as Gersons' Vintage lady's compacts with just as many color photographs of compacts. However Mueller expands her information on compacts with every chapter and the different compacts are categorized by type ie, military, novelty etc and she also includes face powder boxes and other related items in her books. I would

recommend getting both volumes of her Encyclopedias as one is meant to compliment the other. There was a wonderful wooden box that she includes in one of the books that was originally meant as a bridal gift that I would love to acquire. Mueller has put keepsakes from her own wedding in it to demonstrate what it could be used for. Plus on the top of many pages of her books are quotes from people who were in the cosmetic and compact business when compacts were originally made that I find fun and unique. I highly recommend these books by Mueller .0 of 0 people found the following review helpful. Fun book!By Maya DGreat book with lots of info and pictures. Lots of variety and history as well.1 of 1 people found the following review helpful. Nice book but over-pricedBy ShellyHNice book for collectors of compacts and great photography descriptions. However, I believe the book is a little over-priced it would be nice to have a section in it so that the owner of the book could write in it to document their own collection or to add notes.

Over 900 items are featured in beautiful color. Original advertisements add a special touch to this historical overview. Every item is described in detail with size, date of manufacture, marks, and 1999 values. AUTHORBIO: A historian first and a collector second, Laura Mueller assembled a collection that would represent the rise and fall of compacts for her two volumes, Collector's Encyclopedia of Compacts, Carryalls, Face Powder Boxes, Books I and II. Her knowledge of compacts is unparalleled. REVIEW: This book showcases a wide variety of compacts, some of the best examples of each quirk and turn of design that occurred in their production. Countless hours of research went into this book, and compacts are shown in large, detailed color photographs with information, sizes, and current collector values.
