Franklin D. Roosevelt and the Stamps of the United States 1933-45

Brian C. Baur : Franklin D. Roosevelt and the Stamps of the United States 1933-45 before purchasing it in order to gage whether or not it would be worth my time, and all praised Franklin D. Roosevelt and the Stamps of the United States 1933-45:

3 of 9 people found the following review helpful. WHO WANTS TO BE ASSOCIATED WITH PROUST ANYHOW?By Alf. LandonS.L. Taylor's review of this book was most helpful, however:1.) Remember, it doesn't necessarily have to be big to satisfy!2.) Emile Zola's prose was only turgid after he had been drinking. the rest of the time he didn't say enough to make any sense to a reader what-so-ever.3.) Who wants to be associated with Proust anyway? Nobody named "Marcel" could have written a book like this in the 1st place.4.) Christopher Hitchen's talks

funny, but I like his hair.5.) There are worse hobbies than dead postmasters general you know, like bowling, air guitar, goal tending, marrying cops! I find the book a fascinating addition to the library of obscure FDR related bits of trivia.3 of 9 people found the following review helpful. Linn's Book on Stamps of the Roosevelt Era is a Must-HaveBy CustomerThere are 5 reasons that no stamp collector who is interested in stamps of the FDR era should be without this book.1.) It is not as big as A la Recherche du Temps Perdue.2.) Brian C.Baur's prose is not as turgid as that of Emile Zola.3.) Much like Proust and Zola nobody knows who Brian C. Baur is either.4.)Mr. Baur does not use as many big words as Christopher Hitchens.5.)This book contains important historical information not found anywhere else.(e.g The names of Postmasters who have been dead for more than half a century.)

Behind-the-scenes look at the origins of some of America's best-loved stamps, as well as insights on FDR's thoughts on a variety of subjects. Each chapter features detailed information on the stamps issued during FDR's presidency, such as the first day of issue, the designer, the engravers, the quantity issued, plate numbers and varieties.

From the Back CoverINSIDE FLAP:About the AuthorA native of the Chicago area, Brian C. Baur is an armchair historian of the United States during the Franklin D. Roosevelt era. He has a specialized collection of stamps portraying Roosevelt, as well as a specialized collection of U.S. stamps of the Roosevelt era. In addition to collecting anything associated with FDR, he also maintains his childhood collection of U.S. stamps, which he still collects in postally used condition only.
