(Library ebook) French Bronzes in the Wallace Collection

## **French Bronzes in the Wallace Collection**

**Robert Wenley : French Bronzes in the Wallace Collection** before purchasing it in order to gage whether or not it would be worth my time, and all praised French Bronzes in the Wallace Collection:

The group of about one hundred French bronzes in the Wallace Collection is justly considered one of the finest such collections in the world. Fifty-one of the best are featured in this book, the first in-depth study of the subject in English. They range in date from about 1570 to about 1840. Among them are the two most valuable items in the collection of Louis XIV, fine bronzes made for his predecessor, Louis XIII, and an exceptional portrait of his ancestor, Charles IX.
