**Connaissance des Arts : French Master Goldsmiths And Silversmiths From The 17th To The 19th Century (French Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised French Master Goldsmiths And Silversmiths From The 17th To The 19th Century (French Edition):

The most favorable epoch of French orfèvrerie spanned 300 years, reaching its peak in the 18th Century---le "Siccle des Lumieres."The distinguishing marks of the French master goldsmiths and silversmiths led to the classification of these great artisans and to the discovery of a wealth of superb work which had been ignored.In this magnificent,

sumptuous work of 336 pages are 473 photographs, 48 of which are in full color, printed on the highest-quality paper. An absolutely superb volume, unparalleled by anything published today, and a must for anyone interested in this subject.
