George Gittoes

Gavin Fry, Fine Art Publishing : George Gittoes before purchasing it in order to gage whether or not it would be worth my time, and all praised George Gittoes:

An eye opening look at man's inhumanity to manBy John FasanoGeorge Gittoes' work chronicled in Gavin Fry's book represents just a tiny fraction of his importance to the Art and political World. His work in Africa revealed the genocide in Rwanda. The color plates present images that will be seared into your memory. I can close my eyes now and still see them. If you think you know what is going on in the world, you must buy this book.
