Goldmine Record Album Price Guide

From Goldmine : Goldmine Record Album Price Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Goldmine Record Album Price Guide:

0 of 0 people found the following review helpful. Bad show, Goldmine and Dave Thompson! By Charles Jenkins Very disappointing publication! I own at least a dozen record price guides (hard to get rid of 'em when my primary aim with these guides is research like year of issue, not price). When I saw that this 9th edition would include compilation LPs, I was thrilled. Unfortunately, the comp-LP section is undersized and underwhelming. But my main gripe with this 9th edition is that it seems to be a clone of the 8th edition of American Records, which I already own. These two LP guides were published 5 years apart, I believe, but both of them lack listings for the following singers/groups: Willie Nile, Pezband, Rain Parade, Joe Henry, Robin and Linda Williams, Bill Staines, Wendy Waldman, Buzzy Linhart, Cheryl Wheeler, the Windbreakers, Steve Wynn. Not big, big singers/groups, but I own 'em and I expected to see 'em in the 9th edition guide. Related, the Dwight Twilley listing lacks any data for the Green Blimp LP on Burger Records. Likewise,

the Townes van Zandt lacks the Fat Possum reissue from 2007 of "My Mother the Mountain." You probably get what I'm saying by now. If you own the 8th edition of the American Records price guide, this 9th edition of the Record Album Guide is ****NOT**** worth a dollar. If you own neither, pick up the 8th edition for a big discount - you can probably score a very good copy for \$10 or less. Or go with Jerry Osborne who tends to be better at being comprehensive. Bad show, Goldmine and Dave Thompson! 0 of 0 people found the following review helpful. It is a book, it has values of LPs ... By Rbry Inc It is a book, it has values of LPs in here. Really nothing else you can say. As far as books go it is right up there with other "books" as far as a price guide goes it gives you an idea of value, things are only worth what someone is willing to pay for them. Even if they list something at \$1000 and people are selling it online for lets say \$100 then it is worth \$1001 of 1 people found the following review helpful. Great source for offline prices By HdRidesOnX Great source for offline prices. I found this to be a great tool for pricing my Albums, very informative, and depicts the "Slight Differences" that make HUGE differences in value, that you just can't find in "On-Line" listing resources. Good Reliable, and Trusted Source, I have used the Goldmine Price Guide for Years, and as a resource for pricing my over 40,000 albums, is invaluable and current. A must have for the serious Seller/Collector.

For the record From Abba to ZZ Top, Goldmine Record Album Price Guide, 8th edition, provides more than 100,000 listings, detailed descriptions and values to American-released vinyl albums. This completely vetted and massive guide features: Current values and listings for 100,000 American vinyl albums released since 1948, valued at \$12 or more Rock, pop, jazz, country, blues and much more Original Cast Recordings, Soundtracks and Various Artists Collections An easy-to-use, well-organized format for simple discovery The Goldmine Grading Guide, the industry standard Whether your passion is pop or musicals, Goldmine Record Album Price Guide is your best resource for buying, selling or simply appraising a vinyl collection.

About the Author Dave Thompson is one of the leading authorities on all things music. He has published more than 100 books - including the wonderful 1000 Songs That Rock Your World - and is a regular contributor to Goldmine magazine, as well as Rolling Stone. A prodigious writer, Thompson was ranked as one of the Top 5 biographers by Mojo magazine. His biographies have included works on David Bowie, Deep Purple, Red Hot Chili Peppers, The Cure, KISS, and many, many more.
