Goldscheider

Ora Pinhas : Goldscheider before purchasing it in order to gage whether or not it would be worth my time, and all praised Goldscheider:

6 of 7 people found the following review helpful. More than I expected!By Mr. David John ReesA well presented and logically thought out book with, Schiffer-please note, an index (and it works). I am a UK auctioneer and only purchased the book a month ago and have used it to good effect four times already. Ok, I specialise in Decorative Arts of the Twentieth century, but to any collector of Arts Nouveau or Deco (let alone Goldscheider) I would say this book is a must. The progression through time and themes, clearly expressing the changes of fortune of the factories and the

marks used denotes an author well versed in the subject and not one, as sadly is often the case, merely cashing in on the vogue for a given subject. I congratulate both Ora Pinhas and Richard Dennis on an excellent, well illustrated and readable work

This is the first book discussing and profusely illustrating the history of Goldscheider. The Goldscheider Factory in Vienna, Austria had a large production of Terracotta and Earthenware figures from the 1880's to the 1930's.
