Anthony Hobson, Isabelle de Conihout : Great Bindings from the Spanish Royal Collections: 15th - 21st Centuries before purchasing it in order to gage whether or not it would be worth my time, and all praised Great Bindings from the Spanish Royal Collections: 15th - 21st Centuries:

This is the first time that many of these bindings have been shown and photographedFeatures specialist writers from

the UK, France and SpainThe exhibition that this book accompanied, took place in April 2012, bringing together two hundred and fifty bound volumes selected from Spain's National Heritage collections, making up an exceptional and unrepeatable exhibition of these astonishing works of art. These are works that were created for the monarch's own use, beginning in the days of Charles V and Philip II, offering us a marvellous insight into the Royal Libraries of the House of Hapsburg and the House of Bourbon. We also come across items from a number of extraordinary complete collections that were treasured by conspicuous patrons and ending up by enriching the King's library, thus endowing the Crown with the enormous intellectual prestige enjoyed by their owners for having gathered together such works.
