Rock RattlesnakesBy Mr. Mark CraddockThis book is the ultimate Rock Rattlesnake book, containing hundreds of photos with lots of accurate literature. I highly recommend it.Excellent book, first class delivery, even from the USA to the UK. Would definately use again. Thank you !4 of 4 people found the following review helpful. Sharp PictoralBy T. S. WarfelIf you're looking for the best lepidus eye candy out there, this is it. Great pics showing regional variation, and stunning habitat shots. This one is a winner.

In the making for over 5 years. Every mountain range in the United States that 'Crotalus lepidus lepidus' and 'Crotalus lepidus klauberi' are found in is discussed and illustrated. The variation of this species is amazing and this book illustrates it superbly. 437 beautiful full-color photographs.
