There is quite a selection of interesting and unique guitars, and the photos of them are almost life size.0 of 0 people found the following review helpful. Good gift if purchasing for a MusicianBy LA_SinatraPurchased this as a gift for a friend who plays bass and guitar, he specifically requested it. There is limited space to make notes on it but he hasn't mentioned that being a problem for him.0 of 0 people found the following review helpful. I don't like reading sidewaysBy Eric F. LesterThe pictures are nice, but the funky calendar design is not to my liking. Why mess with a winning design? Draw a rectangle, put the days of the week across the top, divide it into squares, put in the numbers, right side up. Sheesh.

Its the obsessive and visually stunning calendar that sings to the soul of the guitar lover. Each month, GUITARS spotlights a groundbreaking, rare, or otherwise notable instrument, gorgeously photographed in full color and printed on an oversized 12" x 14" format that makes every detail and subtlety shine. Theres Elvis Presleys Martin D-18, his name spelled out on the top. A Guild Starfire, one of the acoustic companys forays into the electric guitar world. A

stunning Monteleone Rocket Convertible. Fascinating, in-depth text delves into each guitars maker, history, characteristics, sound, prominent players, and more.
