HolbertAlthough the author gave some information in the front on the content approach, history and laws, there is little mention of product quality or comparison. I could get much more info by brand/model in a quick Bing/Google search than this provides. Example: The Hi Point manufacturer was listed as Dayton, OH when it is in Mansfield, OH. It listed on one model when there are several in several categories. I was disappointed both in content, accuracy and lack of expert comparison.0 of 0 people found the following review helpful. Five StarsBy Dennis L.On time and as advertised.0 of 0 people found the following review helpful. Great For Reference Material...By ABMPurchased for a reporter in Los Angeles, wanted to make sure what got on the "air" was correct. Not many members of the media actually know what they are talking about. After reading this Buyer's Guide the reports should be more accurate...should be!!! ABM
