## Gun Engraving

**Christopher Austyn : Gun Engraving** before purchasing it in order to gage whether or not it would be worth my time, and all praised Gun Engraving:

Finally somebody has written a good, well-illustrated book on fine English and European gun engravers-and that person is the gun authority Chris Austyn, head of Christie's gun sales in New York and London. And what a feast for the eyes this book is. In modern times the art of the sporting-gun engraver has become more and more important, especially since British gunmakers concentrate on producing a small number of beautifully crafted shotguns and rifles. This book is filled with fascinating archival material on old-time "engraving greats" like Harry Kell and Jack Summer, as well as modern artists like Ken Hunt, Geoffrey Casbard, and Malcolm Appleby. Also included is a pictorial section that lists types of engravings and prices. Austyn's previous books, *Modern Sporting Guns* and *Classic Sporting Rifles*,

have been highly successful worldwide.

My favorite book on gun engraving. --Steve KerrAs a gun engraver, I have seen more than my share of books on engraving, and this one is by a very wide margin, the very best. --Lance FrickensmithFrom the PublisherFinally somebody has written a good, well-illustrated book on fine English and European gun engravers-and that person is the gun authority Chris Austyn, head of Christie's gun sales in New York and London.
