Guys and Garages

Helena Day Breese : Guys and Garages before purchasing it in order to gauge whether or not it would be worth my time, and all praised Guys and Garages:

Two of my buddies that received it actually knew a couple of guys in the book! For anyone who has made their garage more than a place to keep a car, this book is a must! The pictures themselves make the book worthwhile, but the stories that go with them bring the pictures and the characters to full life. 0 of 0 people found the following review helpful. Five Stars By MaryLee Truesdale Easy purchase. Excellent item. 0 of 0 people found the following review helpful. Guys and Garages very interesting photo/journalistic book. By Diana Perkins Had this book already, but wanted to give it to someone who would appreciate seeing pics and reading about the variety of sanctuaries that are people's garages!

Packed with engaging black-and-white photos, this gift book celebrates the personalities and passions of everyday men in their sanctuaries, where they tinker, invent, fix a car, or simply escape.
