Half Dollars-Plain (No Dates)

It's a coin collector's book to store 20th and 21st century US Half dollar coins that you don't have a home for in another binder.It is in your power to turn this humble blue booklet from plain vanilla into something really exotic and special. Just use your imagination (and find the appropriate coins to fill it).You could use it to store all your "plain no date" half dollars (the ones worn down so far you can't tell the date), but that's not really what they mean by the title and those sometimes might be a little loose for the book and end up falling out of it into the sofa cushions. You can do better than that: put whatever US half dollar

coins you fancy into it, in whatever order you want them to be, and if you want, you can even write a description (date, mint mark etc.) on the book interior surface above or below the corresponding coins. Or use a label-maker instead of an ink pen if you are so inclined.

By David Mason
I am a novice coin collector and needed a folder to organize my Kennedy half dollars. I chose the Whitman plain folder to display all 49 coins. I bought 2 folders to hold all of them and have room to continue collecting in the future. I followed directions when inserting the coins but was unsuccessful getting the coins "locked" in. Consequently I used a hammer and small block of wood wrapped in Kleenex to insert coins into slots. The good thing is that the coins will probably not fall out. The display looks real good and I labeled each coin in the folder - looks nice. They will serve my needs.

I only use the Whitman Coin Folders for my collections. They are well labeled and easy to use. They hold the coins securely. This folder is no exception. Does everything you could want it to. What is nice about this particular folder is that it is not dated. So if you just have a stack of half dollars around, you can throw them in here without worrying about matching up dates and having empty holes.

Thanks to the Statehood Quarter Program, coin collecting has never been more popular. And to take advantage of this new interest in the hobby, we're giving our complete line of Whitman Classic Coin Folders a beautiful new look.-- Multi-million dollar cover updates for the entire Whitman line!-- True-to-life foil colors reflect and beautifully represent the coins each folder holds -- e.g. Copper foil for Lincoln Cents, Silver foil for Jefferson Nickels.-- Traditional Whitman blue vinyl matches past Whitman products.
