Weaving with Children

Ute Fischer : Weaving with Children before purchasing it in order to gage whether or not it would be worth my time, and all praised Weaving with Children:

Weaving is a creative and practical art that's great fun for all ages and abilities. This original book shows you how to weave a wonderful variety of objects: special jewelry, a pretty bag, juggling balls, a snug scarf and even a scary spider in its web. Some of the items have handy everyday uses a phone pocket, a mug warmer and a coin purse -- and some are just great fun fairyland mushrooms, a dreamcatcher and an Easter hen. Each enjoyable project is accompanied by easy-to-follow, step-by-step instructions and color photos showing children how to weave with a variety of materials from traditional wool, to rags and plastic bags. Ideal for parents or teachers, the projects are most suitable for children aged 7 to 14 years old. Color illustrations
