**Carol Herbst : Weavings of Wisdom** before purchasing it in order to gage whether or not it would be worth my time, and all praised Weavings of Wisdom:

I got this book as a gift for my 9 year old nephew. He loved the story with the references to animals, and was mesmerized by the gentle ideas that touched him deeply. He has since read and re-read the book, and shared it with the rest of his family. My sister asked where I found this book, and she hastold others as well. All of us have been amazed at how positively this book has affected him. I would highly recommend this book to kids of all ages, as well as adults, would benefit from this book.

As this author emerges out of her own oppression, every fiber of her being tingles with the truth that we are meant to live fully and joyfully. This story flows out of her as she awakens to the spirit within, bursting forth. A brief but engaging tale told through a wise Native American expressing who we are and are meant to be. The ideas will embrace you; elevating and encouraging you to ascend to your higher self.

About the AuthorAs a child, Carol remembers being naturally drawn to the earth. Later, she learned that her great great grandmother was a full-blooded Cherokee. She has been a single parent for the past 8 years. Her daughter Erika is a sophomore in college and Karley is in middle school. Carol has been an educator for the past 26 years, including

work as an elementary teacher, counselor, and special education teacher. *Weavings of Wisdom* was written and illustrated in 1999, after healing from her 17 year marriage. She is currently working on a more in-depth writing of her spiritual journey. Her future plans also include expanding into consultation services that would contribute to the empowerment of women.
