This takes you through historical periods with nice detailed drawings.0 of 0 people found the following review helpful. So soBy Mary H.I received this product a while ago and I can say I was somewhat dissapointed because the pages inside do not have very good illustrations and the quality of the paper is not very good. I will probably resell this product very soon.0 of 0 people found the following review helpful. Good information on the History of FashionBy Janet E. BarlowI wanted a book like this for research for my writing, and it fit the bill just fine. Thank you.

Here is a unique book - a visual survey of dress that covers the fashions of Western man over nearly 5,000 years of recorded history. In 1,800 meticulously rendered line drawings, plus upwards of 50 pages of text, Douglas Gorsline has created an encyclopedia of dress styles that begins with the civilization of ancient Egypt and continues through the centuries to the modern era.
