## **Willow Weaving**

**Truus Stol, Janny Roelofsen : Willow Weaving** before purchasing it in order to gage whether or not it would be worth my time, and all praised Willow Weaving:

1 of 1 people found the following review helpful. A WINNER "HOW TO" BOOKBy The Easy TravelerThis is an excellent "how to" book, with good illustrations clear directions. Very nice! Excellent quality. Shipped promptly is exactly as advertised.2 of 2 people found the following review helpful. Good ideasBy S. WallaceYes, get this book and make your yard look nicer and inexpensively. It's a very basic how-to book but you will need to adapt your projects to what you want to make and there's enough info there to do that easily enough. Very interesting use of willow. I'm using the book to make hanging baskets for flowers and to make comfy sleeping hidey-holes for my cat.1 of 2 people found the following review helpful. Save your money.By Couch Potato BooksI bought this book because it was recommended on a willow nursery website. If you like cute little projects with recipes then this is for you. I was hoping for inspiration and basic knowledge to turn my yard willows into environmental masterpieces. It's thin in actual size too. It does have pretty pictures on nice paper.

This delightful book guides the reader through a series of charming projects inspired by animals and the changing seasons. The basic techniques of working with willow withes is clearly explained and the attractive diagrams will make you want to begin at once. Choose from both traditional and contemporary projects such as Easter Baskets, Dolphin in a Hoop, Swans on the Nest, an old-fashioned Rocking Horse and many more.

213, March 05 ...The book covers such items as models of animals and birds; a willow rocking horse; and various garden ornaments and flower baskets. It is very well illustrated throughout with excellent photography and charming watercolours. As it says on the back cover, this is a delightful book to look at. \* Journal for Weavers, Spinners Dyers  
\*About the Author Truus Stol and Janny Roelofsen are willow weavers from the Netherlands. Taking their inspiration from nature and the animal kingdom, and wherever possible working with natural materials, they have created this range of decorations crafted from rings of woven willow rods. Originally published in Dutch in 2002, this is their third book, and is the first to be translated into English.
