## Wristwatches/Armbanduhren/Montres-Bracelets

**Gisbert L. Brunner, Christian Pfeiffer-Belli : Wristwatches/Armbanduhren/Montres-Bracelets** before purchasing it in order to gage whether or not it would be worth my time, and all praised Wristwatches/Armbanduhren/Montres-Bracelets:

0 of 1 people found the following review helpful. Best in its Class!By Lisias G. Alcantara FilhoThe most comprehensive and well written book on watches! A must have, for watch lovers. I have several catalogues and magazines, but for true collectors and watch lovers this book is a bible.1 of 1 people found the following review helpful. One of the best in an all-too-shallow genreBy S. KosloskeThere are not a lot of watch collecting/information books on the market, and of those few, only a handful really stand out. This is one of those few. Covers quite a lot, has some in depth information for beginners, and is still a great reference for the experienced.2 of 3 people found the following review helpful. One StarBy RudyWhy is this book worth \$700? Rare first edition Mark Twains are less.

Wristwatches presents illustrated portraits of all the popular watch brands - some of them long since unavailable - from American, Germany, Japan, France and, of course, from the world's major manufacturer of timepieces, Switzerland. In its technical chapters, it explains all the highly complex operations going on underneath the face and tells the fascinating story of the watch, of its design and its various forms and looks. Rounded off by a thorough glossary and a chronology of watchmaking starting in the 16th century, this book is a great read for everyone with a taste for luxury.
