Five StarsBy JMGreat book!8 of 8 people found the following review helpful. A stunningly beautiful book!By Diana L. TaylorThis book is about weaving from the heart. Each project helps the weaver thoughtfully examine opportunities for positive growth and change, and bring them to life through small form weaving. Starting with the amulet, you begin your journey. Subsequent projects called 'keyforms,' build on each other, and assist the weaver forward to that particular journey's end. The projects are simple, the weaving contemplative. I bought the Journey loom along with the book, which added to the meditative process for me, as even the sticks of the loom have representational meaning. If you love spiritual weaving, or wonder about what it is, this is a wonderful book to explore.

"YOU don't have to weave to get "weaving a life" but you will discover that weacing is a simple art..As an unspoken language pattern symbol, it unites the human heart hand...." from back cover
