Zenith*r Transistor Radios: Evolution of a Classic (Paradigm Visual Series)

Norman R Smith : Zenith*r Transistor Radios: Evolution of a Classic (Paradigm Visual Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Zenith*r Transistor Radios: Evolution of a Classic (Paradigm Visual Series):

1 of 1 people found the following review helpful. gift for brotherBy almost heavenMy brother says he really enjoys this book. He's been a collector of radios for 50 years and is particularly interested in transistors.0 of 0 people found the following review helpful. Well recommendedBy Michael CranstounVery informative, well written. A good guide for the Zenith Royal series of transistor radios. I wish Zenith was still manufacturing these great well made radios.4 of 4 people found the following review helpful. A Love Affair with Zenith Transistor RadiosBy CustomerIt is always fun to read a book written by someone in love with a subject. This beautifully illustrated history of Zenith transistor radios is the perfect example of a love affair in print. Ads, color photos, engineering trivia, pricing estimates, and a firm dose of opinion, all beautifully packaged.

Here, for the first time, is a complete guide to all the wonderful transistor radios produced by the Zenith Radio Corporation during the "Magic Years," when transistor radio design was constantly being improved. This comprehensive book includes a complete listing of all transistor radio models created by Zenith from 1955 through 1965. Outstanding color photos from original Zenith sales sheets as well as information on each model are presented in a year by year order of production. Never before published photographs, documents, and original drawings from the Zenith archives, as well as a large collection of original Zenith advertising, fill the pages. A large, full-color photo section with price guide rounds out the book and will help readers easily identify each Zenith transistor radio from those "Magic Years."

About the Author Norm Smith is a longtime collector of transistor radios who still uses his original Zenith Royal 500H purchased new in 1962. Norm and his wife Susan reside in Bradenton, Florida.
